PROFESSIONAL SUMMARY

Highly motivated Computer Engineering graduate and MERN Stack Developer with a strong foundation in building scalable full-stack applications. Proficient in MongoDB, Express.js, React.js, and Node.js, with expertise in creating secure authentication systems and RESTful APIs. Actively expanding technical proficiency into Next.js and TypeScript to build modern, performance-optimized web applications. Committed to writing clean, maintainable code and solving complex technical challenges within a collaborative development environment to deliver high-quality software solutions.

TECHNICAL SKILLS

Programming: Java (OOP, DSA), JavaScript (ES6+, Async/Await), SQL (MySQL).

MERN Stack: React.js, Node.js, Express.js, MongoDB.

Frontend: HTML5, CSS3, Next.js, TypeScript, Tailwind CSS, Bootstrap, GSAP Animation.

Tools & Auth: Git, Postman, VS Code, Cursor AI, JWT, Claud AI, Render.

PROJECTS

AI Career Coach | GitHub | React.js, Node.js, Tailwind CSS, MongoDB, Express.js, MVC, JWT, Gemini AI.

- Developed an AI-driven career coaching platform that evaluates resumes against job descriptions and identifies skill gaps.
- Implemented AI-generated interview questions, personalized preparation roadmaps, and ATS-friendly resume generation.

PrimeCall - Video Meeting Room | GitHub | React.js WebRTC, Node.js, Express.js, MVC, Socket.io, MongoDB

- Architected a real-time video conferencing application utilizing WebRTC for low-latency peer-to-peer audio and video communication.
- Used Socket.io for signaling, room management, and real-time user events.
- Demo:** <https://primecallfrontend.onrender.com> | **GitHub:** <https://github.com/hamzaKhan2004/PrimeCall>

Anime Blog Website | GitHub | React.js, Node.js, Express.js, MongoDB, Tailwind CSS, MVC, JavaScript (ES6+)

- Developed a clean, modular blogging interface with integrated search filtering and real-time post creation functionality for dynamic content.
- Utilized Render for continuous deployment and database handling, ensuring reliable and high-performance access to user-generated content.

Relevant Coursework & Technical Development

- Built a strong foundation in Object-Oriented Programming, Data Structures & Algorithms, and MERN Stack development through academic projects and self-driven learning.
- Developed and deployed full-stack web applications using React.js, Node.js, Express.js, and MongoDB, gaining hands-on experience in authentication, REST APIs, and database management.
- Enhanced problem-solving and teamwork skills through participation in technical workshops, hackathons, and collaborative software development activities.
